

### Gambica Press Release:

MMP Tax, the specialist innovation consultancy, is proud to announce a collaborative partnership with GAMBICA, the UK's Trade Association for Instrumentation, Control, Automation and Laboratory Technology.

This new partnership will allow the two organisations to share knowledge, expertise, and industry insights, and to use their combined influence to ensure members' voices are heard by HMRC, the Treasury and Innovate UKRI.

MMP offers breadth and depth in the provision of specialist technology-based consultancy for innovative companies. MMP combines specialist knowledge and professional qualifications with practical experience in engineering and scientific disciplines of their staff to help companies with IP Planning, to apply for grants and access technology tax incentives. MMP apply these skills to ensure clients maximise value from their innovation.

Specific areas of expertise include IP planning and tax reliefs for R&D, and patented technologies and UKRI grants.

MMP offer GAMBICA members expert advice, with a tailored service to minimise member's time commitment while delivering exceptional added value.

The directors of MMP Tax have decades of experience in technology tax reliefs from a technical, tax and consulting perspective, in addition to wide-ranging experience in industry.

**David Marshall Director of MMP,** said

"I am delighted that this respected trade body has selected MMP as their chosen partner for IP planning and tax incentives for the innovative Instrumentation, Control, Automation and Laboratory Technology companies in the UK. We look forward to working in the Gambica community, providing advice on accessing and planning for these generous government incentives"

**Alexis Marz** director of MMP commented, "Our team of qualified engineers and scientists are enthusiastic about working with Gambica members and understanding the technology challenges faced in this industry"

**Steve Brambley, Chief Executive of GAMBICA,** said

"We first worked with the team from MMP more than 15 years ago, now the tax reliefs programme has expanded, changed and grown in generosity. The incentives are there to encourage innovation, yet they can often be challenging, time consuming, and complex to compile and apply for, by partnering with MMP our members have the benefit of working with this market leading consultancy to access these incentives"

"GAMBICA is pleased to have agreed a 25% discount for members on MMP's usual fees in IP planning, Patent Box Tax Relief and R&D tax credits".
